

User Manual

**Wireless DMX&IRC par can with battery
&Phone app 6pcs 6in1**

Please read over this manual before operating the light

Features

- Power supply: AC100V-250V
- Frequency: 50-60Hz
- Power consumption: 90 W
- Light source: 6pcs 15W high brightness RGBWAUV 6 in 1 leds
- Lamp life: 6-10 ten thousand hrs
- LED angle: 30(±5) degree
- Color: 16.7 million kinds of color change
- Control channels:6/10 chs
- Battery power & wireless DMX&IR
- Built in 2.4G receiver/ transmitter for wireless DMX operations
- Control mode: DMX512/wifi, master/slave, auto, sound active
- Automatic model(by function button) : color change, color strobe, color dimmer, color gradual change/color jump change
- Operation menu: 4 digit digital LCD display
- Packing size: 23*22*20cm
- N.W: 2.50kg
- G.W:3.0KG

Most important: FIRST CHARGE THE FIXTURES FOR 6-8 Hours on the First Charge before use. Plug in Power cord. Turn off Power Switch and Turn off other switch to charge.

Introduction

Unpacking: Thank you for purchasing this product, all products has been thoroughly tested and has been shipped in perfect operating condition. Carefully check the shipping carton for damage that may have occurred during shipping. If the carton appears to be damaged, carefully inspect your fixture for any damage and be sure all accessories necessary to operate the unit has arrived intact. In the case damage has been found or parts are missing, please contact the manufacturer or your dealer for further instructions. Do not return this unit to your dealer without first contacting.

Introduction: The Light is a DMX intelligent and battery powered LED par light. This par light is light weight and compact which makes it a great piece for mobile DJ"s and clubs.

For Battery Function and Charge

The unit has the function of battery powered. The button for battery and charge is set on the rear panel. It is showed as the following picture, and the function is described as below.

1. DMX present signal LED
2. DMX code setting button for DMX signal to transmitter
3. LCD display screen
4. Touch buttons(Menu, Up, Down, Enter)
5. IRC receiver
6. Hole for light clamp
7. 3 Pin DMX Out
8. Mains 100-240 volt power Out(Output)
9. Stand for adjust light angle
10. 3 Pin DMX In
11. Power In/Out
12. Mains 100-240 volt power In(Input)

There is one button on the rear panel of the lighting. It is for power.

- When use the wireless DMX, please open it via LCD display.
- When charge the light, please switch both of the button for "off". At the same time, if the switch for power is "on", the light will be at work during the process of charge, but will consume some power from the charge; if the switch for power is "off", the light will be blackout and not be at work.

Tip for the battery and charge:

- The battery can last for 3-3.5 hours when all LEDs on after full charge, and can last for more than 7-9 hours on auto running mode. Up to 20 Hours with one color diode on. Results will vary based on brightness of LEDs
- It is suggested to charge the battery for at least 4 hours, which will extend the life span of the battery.
